MEMORANDUM FOR DIRECTOR, PROGRAM B

SUBJECT: F.Y. 1964 Program Approvals for Other Than Program B

Reference discussions 6 Dec 63 with personnel of your Directorate concerning F.Y. 1964 program approvals for other directors which involve funding thru the Director B organization.

In order for your organization to be able to request obligational authority/allotments from your Director of Finance, the attached tabulation of F.Y. 1964 program approvals, funding to date, and balances is attached. Certain of these may be subject to relatively-modest adjustment later, and are so annotated in the tabulation. Your organization will be informed of any future changes to these amounts.

25X1A Reference memo 1 Nov 63 from DNRO, subject "F.Y. 1964 Programs, Director B." The separate ARC-50 GSE & Mod. entry [redacted] should now be merged with the Oxcart airframes entry for all practicable purposes. It was temporarily included in the Red Light account, but this has been corrected. 25X1A With respect to the "Kodlock - Other" entry for [redacted] a portion of this may not be funded thru Program B; you will be informed when this aspect is determined. Also, a sheet was included on C/M/A/L Payloads for your information; the figures have been revised in certain instances, and the new amounts are shown in the attachment.
